

# The Seasons

Name \_\_\_\_\_

The diagram below shows the Earth's position in its orbit on four different dates. On the solid line label the equinox dates. On the dotted lines name the season for the Northern Hemisphere.

## WORD BANK

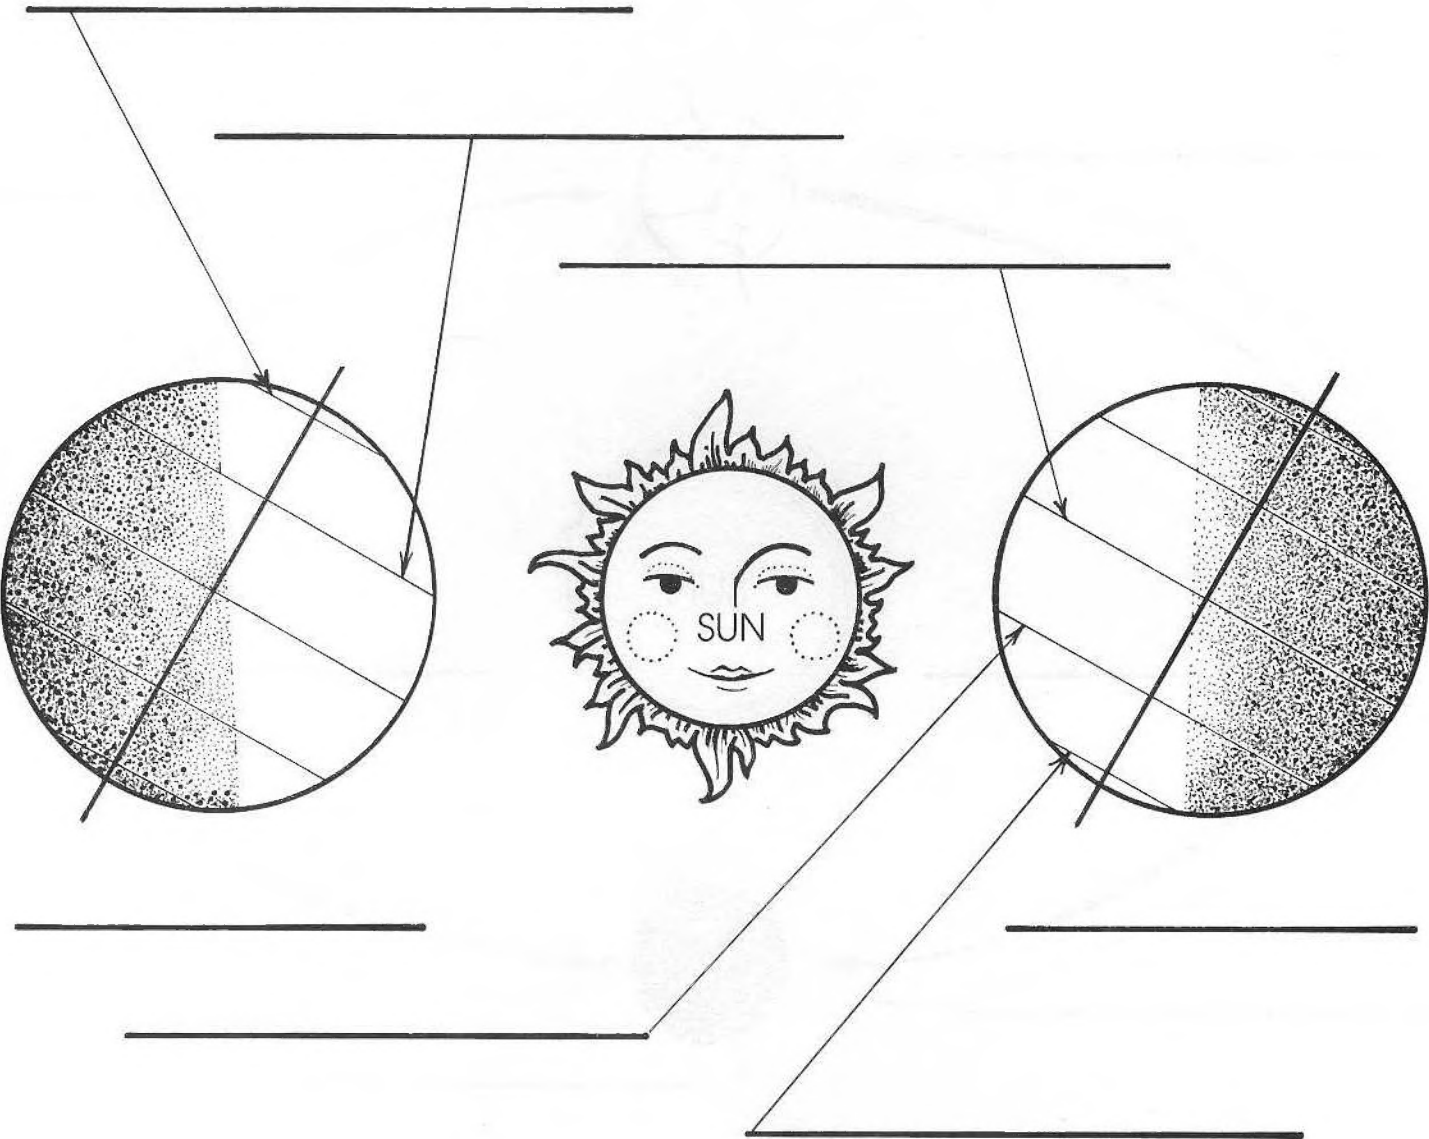

March 21  
September 22

December 22  
June 21

spring  
winter

fall  
summer

The illustration below shows the Earth's position in relation to the Sun for the summer and winter in the Northern Hemisphere. Label the seasons for the Northern Hemisphere, and name the imaginary lines of latitude on the Earth.
